

DATABASE

LEVEL: INTERMEDIATE

Ref: DBI/311/C

The Database below may be keyed in prior to the examination and be available to candidates on the day of the examination.

This can be achieved as follows:

<u>OPTION 1</u>	The teacher may key in the Database below prior to the examination and make it available to the candidates on the day of the examination.
<u>OPTION 2</u>	The candidates may key in the Database prior to the examination and save it to an appropriate folder so that it is available on the day of the examination.
<u>OPTION 3</u>	Finally, the Board can email the Database to the teacher on request prior to the date of the examination so that it can be made available to the candidates on the day of the examination.

The following Database is required on the day of the examination.

It represents details of a stock take carried out by Healy Hardware and Garden supplies on a particular date.

Give it the title ‘Stock Items’.

Please key in as presented below.

Department	Product	Units in Stock	Cost Price	Supplier
Hardware	5 Lt Ceiling Paint	47	€9.49	T&T
Garden	Hose – starter set	61	€24.50	Rolestown
Hardware	7” Roller	211	€2.95	T&T
Flooring	Uplighter floor lamp	14	€14.95	GHW
Hardware	2” bolts	79	€1.29	Murphy
Hardware	4” bolts	91	€1.79	Murphy
Garden	220 Lt Composter	34	€65	Rolestown

DATABASE

LEVEL: INTERMEDIATE

Ref: DBI/311

TIME ALLOWED: 50 MINUTES

- 1. This examination consists of four tasks.**
- 2. Candidates are required to print out the answer to each of the four tasks at the end of the examination.**
- 3. Please insert your name and today's date as a footer on each page.**

A Database called 'Stock Items' should now be available to you. Your supervisor/teacher will explain to you where the database can be obtained.

The database represents details of a stock take carried out by Healy Hardware and Garden supplies on a particular date.

TASK 1

- Insert a field after 'Product' for 'Brand' and complete for the seven products listed as follows: Maple, Alloy, Maple, Contex, Lorton, Lorton and Alloy.
- Insert four new fields at the end with the following details:

Last Order Placed	Contact/Enquiry	Selling Price	Damages
3 March	P Hanley	€14.99	Y
4 March	T Tomkins	€39.99	N
3 March	T Tomkins	€4.49	N
3 March	C Wynne	€19.99	N
2 March	P Hanley	€2.49	N
2 March	P Hanley	€2.99	Y
4 March	T Tomkins	€99	N

- Insert two additional records with the details as follows:

Dept.	Product	Brand	In Stock	C. P.	Supplier	Last Order	Contact	S.P.	Dam.
Garden	Watering Can	Alloy	15	€6.95	R'town	2 March	T. T.	€9.99	N
Hardware	10 Lt Ceiling Paint	Maple	34	€14.50	T&T	3 March	P. H.	€17.99	N

- The 7" Roller – increase the number in stock by 8 and the contact should be P Hanley.

- The cost price of the 4” bolts should be €1.59.
- Sort the database according to when the last order was placed followed by selling price.

Save and print a copy.

TASK 2

Use the Database in Task 1 and extract the following:

- All products supplied by either T&T or Rolestown that cost more than €10.

Save and print a copy.

TASK 3

Use the Database in Task 1 and extract the following:

- Products that have 20 or more units in stock and that have no damages.

Save and print a copy showing: Product, Brand, Cost Price, Selling Price and Damages only.

TASK 4

Create a form for the 220 Litre Composter.

Create a suitable background for the form.

Insert a header on the form with the title ‘Stock Item 23’.

Save and print a copy.
